EAI **Estimated Annual Income (EAI) & Estimated Yield (EY)**- EAI is an estimate of annual income for a specific security position over the next rolling 12 months. EAI may be negative on short & EY positions. EY is calculated by dividing the current EAI for a security position by its statement closing date market value. EAI and EY are estimates only and may include return of principal and/or capital gains, which would render them overstated. Actual income and yield might be lower or higher than the estimated amounts. For calculation details, refer to the "Additional Information and Endnotes" section.

All positions held in cash account unless indicated otherwise.

Total Cost does not include the cost basis on core money market or other positions where cost basis is unknown or not applicable.
